

To all our customers,

Our hearts and thoughts are with all the families, friends and community members who have been impacted by the COVID-19 outbreak.

At this time, AMR Designs is operating with no restrictions and no changes to production. We will continue to be open during normal business hours. However, to help with reassurance with social distancing, customers may call before coming in and/or set up appointment times which may help with overcrowding within our customer service area.

Our staff is focused on supporting the efforts of our local health officials and government leaders working to contain the spread of this virus. Our responsibility to protect the health and well-being of our employees, customers and vendor partners is our top priority. It is important to us that we share the precautions we are taking with you:

- We are doing additional cleaning and sanitizing of our front desk/customer area as well as all of our offices and production areas.
- We are reviewing the latest insights and advice from the World Health Organization, Centers for Disease Control, and local governments to prepare to respond as situations are updated.

As this challenging situation continues to change, some impacts to our service may become unavoidable. We promise to keep you informed on any necessary changes to our operations through our social media pages (Facebook, Instagram, Twitter), on our website, and with individual calls as necessary.

During this difficult time, we want you to know that your business and your support mean a great deal to our team. We value your trust, and everyone at AMR Designs is committed to providing the reliable support that our customers need and expect - today, tomorrow, and always.

Sincerely,

Annamarie Stansfield
Owner, AMR Designs
