**ANATOMY OF A CHENILLE PATCH**

**FELTS**

Most patches are constructed using 2 layers of felt: the bottom felt and top felt

**CHAIN**

The stitching that outlines the chenille and binds the top felt to the bottom felt.

**CHENILLE**

The fluffy, carpet-like stitching adds texture and dimension to the patch

**TEXT**

Embroidered onto the top felt. Some patches can have embroidery added to top of chenille.

**INSERTS**

Small patches used to show achievement. Constructed of felt and embroidery.
